Section A (delete befor publication)

Question and Hypotheses

Research Question

Do economic disparities between German cities/regions influence the prices of used cars?

Hypothesis 1:

The higher a city's GDP per capita, the higher is the expected price of used automobiles.

Hypothesis 2:

Used car prices in rural areas are lower than in urban regions.

Scraped Ebay Kleinanzeigen for (specific) used car offerings.

Subtitle 3.1.

Practical applications

Important for Policy makers?
